CHRONOLOGY AND SUMMARY OF STATES (PALETTES)

Diagnostic orders and imaging results

List in chronological order. Indicate when results should be released, and note if ILT delivery is required.

Resources and equipment

Medical equipment _____

Medical supplies _____

Medications needed _____

LEARNER OBJECTIVES AND CRITICAL ACTIONS

Learner objectives

1. Write learner objective here
2. Write learner objective here
3. Write learner objective here
4. Write learner objective here

Critical actions

Write the critical steps to the learning experience and include them in the stages as appropriate.

1. Insert critical action

- ☐ Include any additional information here. This may include getting vital signs, assessing a blood glucose level, performing a neurological assessment, etc.
- ☐ Include any additional information here.

2. Insert critical action

- ☐ Include any additional information here.
- ☐ Include any additional information here.

3. Insert critical action

☐ Include any additional information here.

☐ Include any additional information here.

AI PROMPTING — SCENARIO PROMPT

Complete the fields below before running the session. Delete this instruction line once the prompt is ready.

Patient

Name of patient, character-tag {####} _____

Date of birth _____

Gender identity _____

Medications _____

Medication details _____

Past medical history _____

Family / social history _____

Career _____

Surgical history _____

Why they are seeking medical care _____

Symptoms _____

Impact on daily life _____

What makes symptoms better or worse _____

How symptoms have changed over the last week/month

Patient behaviour

Health knowledge _____

Forthcomingness _____

Trust in the health care system _____

Attitude towards health care professionals _____

NPC (non-patient character)

Name of NPC, character-tag {####} _____

Date of birth _____

Gender identity _____

Background information on role and knowledge _____

Document information

Author(s) _____

References _____

Date modified _____
